

Organics Recycling Bin

21 Gallon Curbside Organics Bin

The Green Bin+ is designed for the efficient curbside collection of organic waste. When residents are encouraged to divert organics from the waste stream and are educated about the benefits of community composting, up to 50% of food and yard waste can be diverted from the waste stream.

Demand for a mid-capacity, wet organics bin is high for domestic and commercial applications. The Green Bin+ is designed perfectly to meet this demand and fulfill the requirements for semi-automatic and fully-automatic collection.

ORBIS works closely with communities and municipalities to implement successful composting programs. ORBIS experts help municipalities learn to divert food and yard waste from landfills. Through this diversion, communities are able to reduce curbside collections and decrease tipping fees.

FEATURES

- Secure 360°, double rim closure
- Cornerless, smooth interior walls for ease of cleaning
- Two closure styles available - Easy-grasp top latch or latchless design
- Ergonomic side handles
- Designed for automated and semi-automated collection
- RFID compatible
- Retention clips for compostable liners
- 8" rubber wheels for easy mobility
- Manufactured with recycled material
- Optional hot stamping available for effective branding

Can be combined with the Kitchen Collector for the easy collection and transport of food waste from the kitchen to the backyard!

Product ID:	NPL285
L x W x H	17.8" x 22.0" x 32.5"/ 45.2cm x 55.9cm x 82.6cm
Capacity - Volume:	21 gallon/ 80 litre
Capacity - Weight Load:*	132 lbs/ 60 kg
Weight:	15.4 lbs/ 7 kg
Truckload Quantity:**	1,524

* Bin designed for automated collection

** Shipped on pallets
